What benefits do I receive as a gym member?

Your Gym Membership

As a member under this scheme, we operate the same four pricing options and payment methods. Membership entitles you to unlimited access to **Your Gym** for as often and as long as you like. You will have access to qualified gym instructors at specific times, who can arrange personal training (chargeable) and give advice on the best fitness programmes to suit your needs. Further advice around health and nutrition is also available. You will also be entitled to 20% discount on all the other dry side facilities including children's parties (excluding party food). Selected Fitness Classes are also included within the Gym membership (Please see the SCLC Fitness Class Options Included In Our Membership Leaflet for details). You get the 'Your Deals' discounts and in addition, you also have voting rights as a Trust Member.

This membership does not give discount for Swimming Pools use, but you can save by switching to a Your Gym & Swim card.

Do I need to undergo induction before I can use Your Gym?

Yes - whether you are new to exercise or have been a regular gym goer, we want to ensure you understand how to use our gym equipment safely and effectively. Therefore, before using SCLC gym you must complete a gym induction.

No one may use any fitness equipment within the Fitness suite / Gym before arranging a Gym Induction and completing a **Physical Activity Readiness Questionnaire (PAR-Q) form supplied with this leaflet**. These must be completed and handed to the Gym Instructor at your induction.

If necessary, a doctor's consent may also apply and if required must be returned before using the Fitness suite / Gym.

What does the induction cover and for how long?

Our qualified instructors will show you how to use each piece of gym equipment and give you the opportunity to try them. This ensures you are confident in using our equipment safely and that you get the most out of your workout. It should only last approx 30 min.

How do I arrange induction?

Simply call SCLC to arrange a suitable time. Our gym inductions are completed at a maximum ratio of 1:4 people, so if you have a friend that also wants to join our gym why not book an induction together!

How much will it cost?

If you have a Gym Membership your induction will be free. All other customers will pay the appropriate pay as you go fee, currently £10.

What are the gym rules/Gym Code of Conduct?

What benefits do I receive as a swim member?

Your Swim Membership

As a member under this scheme, we operate the same four pricing options and payment methods. Membership provides unlimited access to public sessions in either pool including lane swimming, adults/ladies only, 50+ swim, parent & child (under 5's), family swim and fun sessions.

This membership does not give discount for Fitness Gym use, but you can save by switching to a Your Gym & Swim card.

What are the swim rules/Gym Code of Conduct?

In the interests of safety and use by other customers, the following actions are prohibited at all times:

Running - most common cause of accidents, particularly where floors are wet and slippery. Other pool users may be knocked to the floor or pushed into the water and the runner may collide with poolside fittings or equipment.

Pushing - Hazardous to those being pushed and to other pool users who they fall into. Lifeguards should also be on the lookout for pushing in the swimming pool as this is an example of bullying.

Fighting or Bullying – Fighting and bullying are both very dangerous in or near a swimming pool. Both can result in injury and bullying is particularly distressing for the victim. Even when fighting is playful, younger or smaller bystanders can be hurt.

Ducking – Potentially very dangerous as well as being upsetting for the victim. One danger is that when water enters a person's mouth, an automatic reaction closes the airway to prevent water getting into the lungs. Sometimes breathing fails to restart when the danger is passed and the victim succumbs to what is known as dry drowning.

Bomb Diving – This is where pool users leap from the poolside with their knees tucked to the chest and their arms around them. In this position the diver has virtually no control of direction. Bomb diving is both a nuisance and a danger, particularly to other pool users.

Gymnastics – Pool users performing gymnastic moves in the water may hit the side or bottom and injure themselves. They may also collide with other pool users injuring both parties.

Tampering with or removing lane ropes.

Glass containers on poolside.

Food on the poolside.

Smoking – including electronic cigarettes, anywhere in the building.

Spectators congregating on or near to the wet changing entrance or on poolside.

Petting.

Photography - Using mobile camera phones/cameras or video recorders.
